Graduate with a strong foundation in programming, problem-solving, and software development. Committed to building efficient, scalable solutions while continuously learning new technologies and contributing effectively in a collaborative environment.

Technical Skills

- Python
 - NumPy
 - Pandas
 - Git
- MySQL
 - JavaScript
 - HTML
 - GitHub
- CSS
 - Java
 - Flask
 - AWS
- Networking
 - OOPs Concepts
 - Data Structures and Algorithm
 - DBMS

Education

Final Year of Computer Engineering Modern Education Society's Wadia College of Engineering, Pune	2023 - 2026 CGPA: 8.84
Diploma In Computer Engineering Padmabhooshan Vasantraodada Patil Institute of Technology, Sangli	2020 - 2023 88.06%
Secondary School Certificate (SSC) City Highschool, Sangli	2019 - 2020 89.40%

Personal Projects

- **Automated College Attendance System using Face Recognition** | [GitHub](#)
 - Built a face-recognition attendance system using **OpenCV** and **PyTorch** with **FastAPI** backend and **PostgreSQL** database.
 - Improved attendance automation through real-time recognition and scalable backend architecture.**Technologies:** Python, OpenCV, PyTorch, FastAPI, PostgreSQL, SQLAlchemy, Computer Vision
- **Voice Assistant Using Python (Frontend + Backend)** | [GitHub](#)
 - Developed a voice assistant supporting 10+ commands including weather, news, Wikipedia, and web navigation.
 - Integrated Speech Recognition, Text-to-Speech, and 3+ REST APIs for real-time responses.**Technologies:** Python, Flask, HTML, CSS, JavaScript (Speech Recognition API, Speech Synthesis), REST APIs (Weather, News, Wikipedia)
- **Version guard – Multi-file Config Tracker CLI (Python)** | [GitHub](#)
 - Built a **Python CLI tool** to track **multi-file config changes in real time (<1s delay)** with **side-by-side colored diffs**. Supported **6+ file types** (.txt, .env, .json, .yaml, .md, .ini), handled errors gracefully, and maintained a **change history of 100+ events** using deque. Enhanced console output using **Rich** and efficient monitoring with **Watchdog**.**Technologies:** Python, Watchdog, Rich, Deque, DiffLib

Co-curricular activities

- **Python Development Internship** **Cognifyz Technologies (Jan,2025 – Feb,2025)**
Concluded a hands-on Python internship, working on practical projects and developing problem-solving, coding, and software development skills.
- **Industrial Training** **Domain Computer Education, Sangli (Jul, 2022 – Aug,2022)**
Completed 100+ hours of industrial training on Amazon Web Services (AWS) and Microsoft Cloud Services, gaining hands-on experience in cloud computing technologies and their applications.
- Secured Certificate of Completion for Complete **Python bootcamp course**.
- Participated in **Web Development Bootcamp Workshop** hosted by Code storm club.
- The **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate**.

Soft Skills	: Problem solving, Leadership, Adaptability, Teamwork, Self-Motivated, Quick Learner
Languages	: English, Marathi, Hindi
Interests	: Photography, Travelling
